

**A MANAGEMENT  
SUPPORT SERVICE FOR  
NOT FOR PROFIT  
CARE ORGANISATIONS**

**The Field Lane Foundation.  
For people, not for profit since 1841**

# **Not for profits often face the biggest Challenges**

Managing an organisation that cares for vulnerable people means having to balance tight resources with increasing responsibilities. The work is complex and challenging.

Field Lane's management services can be a fully outsourced service, or delivered in house with our supportive supervision - They can range from a full operational contract to specialist management support for in-house services and specific advice and guidance.

With over 60 years' experience of running residential care and nursing homes, we understand the challenges because we share them. Our management services are based on our experience of maintaining good services backed up with effective systems.

At Field Lane we know that care charities work best when working together. Together we can offer better services, make cash savings and benefit more people.

## **Our experience could be of benefit to you**

## **Services available include;**

**Financial Management** - Our centralised system offers all aspects of financial control from book keeping to management accounts and full financial services.

**Operational Management** – From manager support to full operational, care and staff management with policies, procedures and fully accredited in-house training, and all based on current experience.

**Training**- Fully accredited training unit specialising in care and support and mandatory requirements

**Strategic Consultancy** – Working with Trustees and staff to create and deliver the business plan and a working budget.

All management and training services are designed around your own requirements and tailored to fit your mission and objectives.

They are based on our experience of successfully managing our own residential and nursing homes, independent housing and supported housing projects and a domiciliary care agency.

We will be pleased to tell you more about any aspect of our services and how they could help you, and to answer questions. We are always happy to share our knowledge and experiences.
